WORLD-CLASS TEAM

THE CREW IN YOUR HOME

NO SUBCONTRACTORS

Everyone working on your project is a full-time member of our team.

BACKGROUND-CHECKED

Every employee passes a background check before entering a home.

10+ YEARS EACH

Every crew member has at least 10 years of high-end finish carpentry experience

THE SAME CREW

The same crew stays with your project from start to finish.

TRAINED IN-HOUSE

Every crew member completes our precision training program before working on a project.

OUR OWN SHOP

WE BUILD IT OURSELVES

Most remodeling companies order their millwork from outside suppliers and wait for it to arrive. We have our own production facility, so we control what gets built, how it’s built, and when it’s ready.

Changes in 24 hours

Ifsomethingneedstobechanged on-site, we can remake it the next day.

We control the quality

Nooutsidesupplierdecideswhat’s good enough for your home.

No outside supplier delays

Yourscheduledoesn’tdependonan outside supplier’s backlog.

HOW YOU'RE PROTECTED

Fixed price

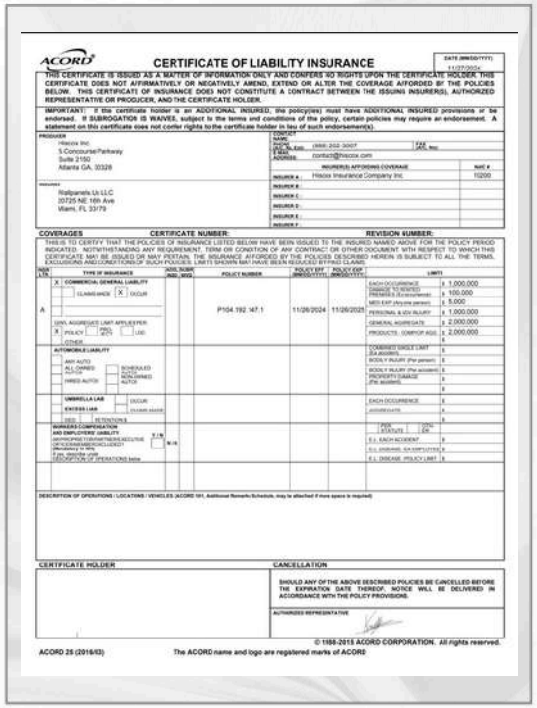

Your approved configuration is included in your agreement as the final pricing exhibit.

Up to $30M in Insurance Coverage

Your home is protected throughout the entire project

Clean, Livable Job Site

Dust control captures up to 99.7% of airborne dust, with full-site protection and daily cleanup.

CERTIFICATE OF LIABILITY INSURANCE

CERTIFICATE OF INSURANCE

Dedicated Project Manager

A dedicated project manager who keeps you informed and guides you through every step.

Changes Approved in Writing

Ifyouadd workorchange materials, we provide updated pricing for your approval before proceeding.

Workmanship warranty

We stand behind our work because we build it ourselves.

A CLEAN JOB SITE

ADVANCED DUST CONTROL SYSTEM

Protecting what matters most — captures up to 99.7% of airborne dust

HEALTH

Minimizes airborne and respirable dust.

PETS

Helps protect your pets from job-site dust.

BELONGINGS

Helps protect your furniture and valuables from dust and debris.

FULL SITE PROTECTION

BEFORE WE BUILD

STEP INSIDE YOUR VISION WITH VR

Put on the headset and walk through your finished space at full scale.

- See exactly what your finished space will look and feel like — not just an image on a screen.
- Make any changes you want while they can still be made at no additional cost.

360° WALKTHROUGH

ON-SITE VR SESSION

TABLET PREVIEW

TEMPORARY KITCHEN

Cook comfortably, even during renovation.

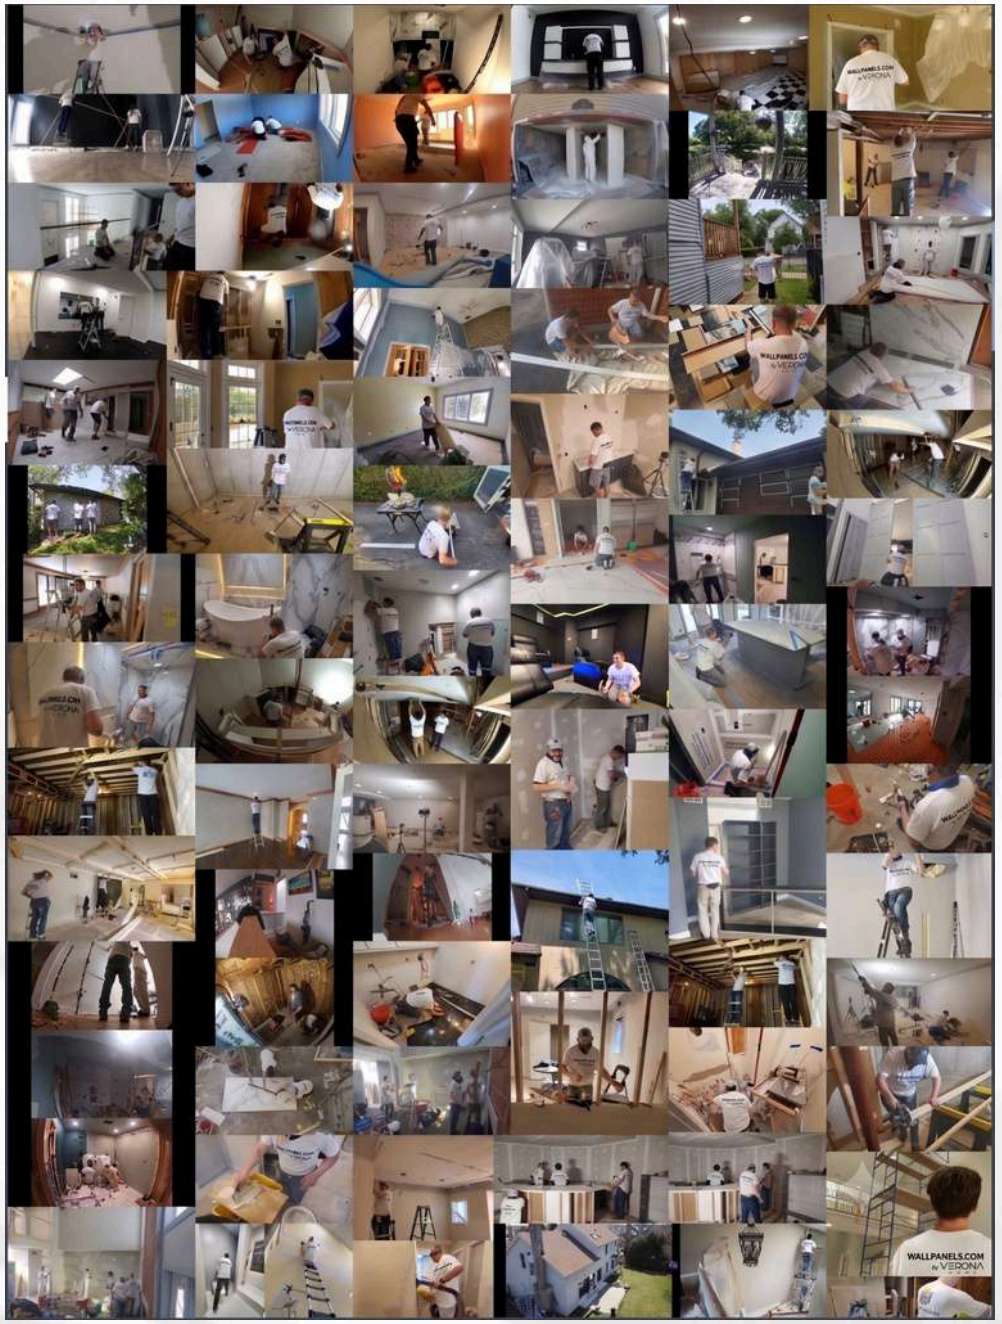

For kitchen and whole-home projects, we set up a temporary working kitchen elsewhere in your home — with cabinets, countertops, and appliances — at no additional cost, so your family can continue cooking and dining at home.

THIS IS WHY DESIGN MATTERS

Now imagine skipping all of that: one 3D rendering, a signature, and then years of living with the kitchen on the left instead of the one on the right.

The design phase is where those decisions are made — and it represents only a small fraction of the total project investment.

First concept

Approved design

Final result
